ACME GADGETS - ACCOUNT FAQ (SAMPLE DATA)

How do I reset my password?
Open the sign-in page and select ’Forgot password’. Enter the email address on your account. We send a reset link that stays valid for 30 minutes. If no email arrives, check the spam folder and confirm that the address is spelled correctly.

Why is my account locked?
After five failed sign-in attempts the account is locked for 15 minutes. Waiting is usually enough; agents can also unlock it after verifying the customer’s name and order number.

How do I change my email address?
Go to Settings, then Profile, and choose Change email. A confirmation code is sent to the new address. The old address keeps working until the code is confirmed.

How do I enable two-step verification?
Open Settings, then Security, and turn on two-step verification. Scan the QR code with an authenticator app and enter the six-digit code to finish setup.
